From documentation to approval, Avoid delays and errors trust the experts to get it done correctly the first time.

The IEC Code is pan Based after GST and it matches with your Business Pan or individuals. It is 10 Digits Identification number issued by DGFT.

Benefits of Getting an IEC Code

- **Global Market Access:** Import Export is a prerequisite for entering international markets, allowing businesses to expand their reach and export products or services to customers worldwide.
- **Customs Clearance:** It is essential for clearing shipments through customs. Without a valid IEC, goods cannot be imported or exported, as customs authorities use this code to verify the legal status of the trade.
- **Foreign Exchange Operations:** Banks require a valid IEC to process foreign currency transactions. This is necessary for receiving payments from overseas clients for exports and for making outward remittances for imports.
- **Ease of Compliance:** Once issued, the IEC has lifetime validity, and there are no requirements for filing annual returns or undergoing renewal processes with the DGFT.
- **Business Credibility:** Possessing an IEC serves as a mark of a verified importer or exporter, which enhances the trustworthiness and professional credibility of a business in international transactions.
- **Access to government incentives:** Businesses with an IEC can benefit from export promotion schemes, subsidies, and incentives offered under India’s foreign trade policy

Who Needs an IEC Code

- **Exporters**

Anyone who wants to sell goods to foreign countries must have an IEC.

- Manufacturers exporting products
- Traders exporting items like garments, handicrafts, and electronics
- Online sellers exporting through international marketplaces
- **Importers**

Businesses or individuals who buy products from other countries and bring them into India need an IEC for customs clearance.

- **E-commerce Export Sellers**

You usually need an IEC to receive foreign payments and ship products abroad.

If you sell internationally on platforms such as:

- Amazon (global selling)
- eBay
- Alibaba Group
- **Service Exporters**

Freelancers or companies providing services to foreign clients may need IEC Code to receive payments through banks (depending on bank requirements).

- IT services
- Digital marketing
- Consulting
- **Manufacturers**

Factories producing goods in India and exporting them to other countries require IEC Code for shipping and customs documentation.

Importance of IEC Code

The IEC Code (Import Export Code) is very important for businesses in India that want to trade internationally. It is issued by the Directorate General of Foreign Trade (DGFT).

- **Legal Requirement for Import & Export**

- IEC is mandatory for importing or exporting goods.
- Without it, customs authorities cannot process international shipments.
- **Enables International Business**
- It allows businesses to enter global markets and trade with other countries.
- Companies can sell their products worldwide.
- **Required for Customs Clearance**
- Customs departments require IEC to clear goods at ports and airports during import or export.
- **Helps Receive Foreign Payments**
- Banks often require IEC when businesses receive payments from foreign clients.
- **Access to Government Export Schemes**
- RoDTEP Scheme
- Other schemes announced by the Government of India.
- **Lifetime Validity**
- IEC is issued once for a lifetime.
- There is no need for renewal, only occasional updates.
- **Improves Business Credibility**
- Having an IEC shows that the business is authorized to do international trade, which increases trust with foreign buyers.
