Import Export License Online Sonipat

FSSAI Import-Export License is Most Import License for trading our food products globally. FSSAI Import Export License is issued by the Food Safety and Standards Authority of India. An FSSAI import and export license usually means a Central FSSAI License for importing food into India, and for 100% export-only food products, FSSAI has a separate export-only provision. For importers, the license is applied for on the FoSCoS portal, and the process includes selecting "Importer" as the kind of business, completing DGFT authentication, uploading documents, and paying the fee.

Benefits of Import Export License

1. Legal Authorization for Food Products Globally: It is mandatory for food importers and exporters in India. Without a valid FSSAI Central License, customs clearance can be denied, and shipments may be delayed, rejected, or seized

2. Customs Clearance: Customs and port authorities often require a valid FSSAI license before clearing food consignments. Reduces the risk of shipment delays and rejections at ports.

3. Develop Business Credibility Trade: If your businesses are according food safety and quality standards as per FSSAI Standard, Then Everybody Either Customer, suppliers, Importer & regulatory authorities will Develop Faith in Your Brand

4. Access to Global Markets: Many international buyers and importing countries expect exporters to comply with recognized food safety regulations. Having an FSSAI license helps meet these requirements and facilitates entry into foreign markets

5. Faster Customs and Port Clearance: Licensed businesses generally experience smoother processing of food consignments because they already meet FSSAI's regulatory requirements. This helps reduce delays airports at ports and

6. Reduced Risk of Penalties: Operating without the required license can result in fines, suspension of operations, confiscation of goods, and other regulatory actions. The license helps ensure legal compliance.

7. Quality Assurance: Ensures your food products are systematically audited, promoting better handling, storage, and processing standards.
